Plant Science Research and Internship Opportunities

Visit plantae.org/internships to access **more than 150 plant science research internships** for undergraduate students.

Students and mentors looking for information about plant science research opportunities can browse NSF-funded Research Experience for Undergraduate (REU) programs, USDA-funded Research & Extension Experiences for Undergraduates (REEU) programs, scientific society fellowships, and more! Brought to you by the Plant Science Research Network (PSRN) in partnership with [Plantae.org](https://plantae.org).

Check out the internship listings at plantae.org/internships.
