You could be awarded $60,000 for research in a STEM field.

THE L'ORÉAL USA FOR WOMEN IN SCIENCE fellowship program honors female scientists at a critical stage in their careers. Since 2003, we’ve awarded 80 postdoctoral women scientists over $4 million in grants. **We’re seeking five exceptional female scientists** looking to advance their research and serve as role models for the next generation of girls in STEM.

Candidates must have completed their PhD and have started in their postdoctoral research position by the application deadline. Must be a U.S. citizen or permanent resident to apply.

**Applications due January 31, 2020**

Visit LOrealUSA.com/ForWomenInScience to learn more and apply.

L’Oréal USA For Women in Science Fellowship Program
FREQUENTLY ASKED QUESTIONS

Eligibility

Q. Where can I find the application and a full list of eligibility criteria?
A. The application and eligibility criteria can be found online at www.lorealusa.com/forwomeninscience. Please note that candidates must be available during the week of November 9, 2020 for the For Women in Science Awards Week if chosen as a winning Fellow.

Q. In order to be eligible for the L’Oréal USA For Women in Science fellowship, must I be a postdoctoral associate?
A. Yes. Applicants must be current postdoctoral associates or begin their postdoctoral position by February 1, 2020.

Q. I am scheduled to complete my Ph.D. within three months of beginning my post-doctoral program. Am I eligible for the fellowship?
A. In order to be eligible for the fellowship, a candidate must have a Ph.D. degree that was conferred on or before February 1, 2020.

Q. Candidates with which types of degrees are eligible?
A. Candidates holding a Ph.D., D.P.H., or Sc.D. are eligible to apply. Candidates exclusively holding any other degree, including M.D. and D.V.M., are not eligible.

Q. I have a Ph.D. and an M.D. degree. Am I eligible to apply?
A. Yes. As long as a candidate holds an eligible degree (a Ph.D., D.P.H., or Sc.D.) alone or in conjunction with a non-eligible degree she may apply.

Q. Are candidates from federal agencies or nonprofit organizations eligible to apply?
A. Yes. Candidates from federal agencies or nonprofit organizations may apply as long as the agency or organization is able to accept funding.

Q. I am a resident of Puerto Rico. Am I eligible to apply?
A. Yes, the fellowship is open to post-docs from the United States and the Commonwealth of Puerto Rico.
Q. I am not a United States citizen, but I have a visa (J1, H1-B, F1, etc.). Am I eligible to apply?
A. No. Applicants must be American citizens (born or naturalized) or permanent residents (green card holders). Unfortunately, visa holders are not eligible to apply.

Q. If I have applied for a green card but have not yet received it. Am I eligible to apply for the L’Oréal USA For Women in Science fellowship?
A. No. Applicants must be American citizens (born or naturalized) or have obtained their green card by the time of application submission (no later than February 1, 2020).

Q. My research will take place primarily outside of the U.S. Would I still be eligible?
A. Applicants must be affiliated with a U.S.-based academic or research institution. International travel for research collection purposes is acceptable, but the research must be primarily conducted or analyzed within the U.S. or a U.S. territory.

Q. Are all scientific disciplines eligible?
A. The research described in the applicant’s Research Proposal must be involved in the life, physical/material sciences, engineering, technology, computer science and/or mathematics fields. Specific eligible areas of study include:

<table>
<thead>
<tr>
<th>Anthropology</th>
<th>Ecology/Environmental Sciences</th>
<th>Neuroscience</th>
</tr>
</thead>
<tbody>
<tr>
<td>Astronomy &amp; Planetary Sciences</td>
<td>Engineering</td>
<td>Nursing Science</td>

<td>Nanoscience</td>
<td></td>
</tr>
</tbody>
</table>

Please see the application for a full list of sub-fields.

Psychology, science education and social science are not eligible for this Fellowship.

Please note that “eligibility” refers to the proposed research – not necessarily the candidate’s degree or department. For example, a candidate with a PhD in Psychology (an ineligible field) who is proposing research in Neuroscience (an eligible field) is eligible to apply.

Q. Are applicants who hold faculty positions eligible?
A. No. Applicants who hold faculty positions are not eligible. Only candidates in full-time postdoctoral positions are eligible to apply.

Q. I currently do not have any mentoring experience in relation to supporting women and girls in science, but I am willing to serve as a mentor in the future. Can I still apply?
A. Yes. We will consider candidates who can successfully demonstrate their interest in and commitment to mentoring and supporting women and girls in science in their application essay.
Q. I read in the eligibility criteria that winners must commit to at least twenty hours of activity in support of women and girls in science (e.g., mentoring, classroom visits, media, events). When does this need to occur by?

A. Winning fellows will have one year from the awards ceremony (November 2020) to complete their twenty hours of service.

**Required Documentation**

Q. Are transcripts required?

A. Transcripts are no longer required as part of the application process.

If selected as a winning Fellow, the candidate will be asked to provide an official transcript from all degree-granting institutions (undergraduate and graduate) to verify their conferred degrees.

Q. How many letters of recommendation are required with the L’Oréal USA For Women in Science completed application?

A. A completed application requires three letters of recommendation. The first letter must be from a mentor or former advisor. The second letter must be from your post-doctoral advisor. The third letter may be from someone of your choice. Additional letters will not be accepted.

Q. How should the letters of recommendation be submitted?

A. Letters of recommendation can either be submitted electronically through the online application submission site (preferred) or can be mailed directly from all references to:

L’Oréal USA For Women in Science
C/O AAAS
Attn: Allison Gonzalez
DEI, 6th Floor
1200 New York Avenue, NW
Washington, D.C. 20005

Mailed letters must be postmarked by Friday, January 31, 2020. The system will send instructions to the email addresses of recommenders entered, however such messages are sometimes blocked by organizations’ email filters. Please be sure to follow up with your recommenders.

Q. What are the guidelines regarding the length of the Proposed Research Plan and the Candidate’s Statement?

A. The Proposed Research Plan should not exceed three pages in length. These three pages should include both the Research Plan as well as any and all references. The Candidate’s Statement and Community Service Statement should each not exceed one page in length.

Q. What should be included in the candidate statement?

A. The candidate’s statement should explain how the L’Oréal USA For Women in Science fellowship will help you conduct or continue your research studies, including professional development activities, and why the fellowship is important to the funding of your research.

Q. What kind of information should be included in the budget and the budget justification?

A. The budget should include details of how the applicant intends to allocate the L’Oréal USA For Women in Science fellowship. A budget template is provided on the application. Additional funding sources which support the applicant’s research should be identified in the budget summary.
Q. What should be included in the mentoring essay?
A. The essay should include information about your mentoring activities or other community service efforts related to supporting the success of girls or women in science. If you have not conducted community service or mentoring activities, include what activities you would plan for your Fellowship year if you were an awardee.

Q. Are there any requirements in terms of typeface style, size and margins?
A. Yes. Any attachments associated with this application (Research Proposal, Candidate’s Statement, and Mentoring Essay) must be clear, legible and follow these requirements:
   ▪ Use one of the following typefaces: Arial, Courier New or Palatino Linotype at a font size of 10 points or larger; Times New Roman at a font size of 11 points or larger.
   ▪ A font size of less than 10 points can be used for mathematical formulas or equations, figure, table or diagram captions and when using a Symbol font for Greek letters or special characters.
   ▪ Margins must be at least one inch.

Q. Am I allowed to submit my application if I am still waiting on any letters of recommendation, or should I wait until this letter is uploaded to submit my application?
A. Any progress made on your application is automatically saved in the electronic system and changes are permitted through the submission deadline of 11:59:59 p.m. ET January 31, 2020. You may hit “submit” whenever desired, as your application will be marked complete for review when all materials have been received/entered.

Q. I applied last year but was not selected. Am I able to apply again?
A. Yes. Candidates who have applied in the past may apply again if they still meet the eligibility criteria.

Q. I applied last year but was not selected. Can you provide feedback on my application?
A. Due to the volume of applications we receive, we unfortunately cannot provide reviewer comments, feedback, or guidance on submitted applications.

Award Payment and Use

Q. Are there specific guidelines related to the use of the L’Oréal USA For Women in Science fellowship funds?

The award is intended to support the applicant’s research project and provide career advancement. Fellowship funds can be used for tuition fees, attendance at meetings and conferences, hiring support staff (including undergraduate and graduate students), laboratory supplies, publication costs, computer and technical support, equipment, and instruments.

Applicants may allocate up to 10% of their total budget estimate for community service or outreach projects beyond the scope of their proposed research plan (e.g., hosting a science workshop for K-12 students with a local outreach organization).

Indirect or fringe costs including health insurance, rent, utilities, university overhead, etc. are not permitted.

Q. Can the L’Oréal USA For Women in Science fellowship be used to cover salary?
A. Yes, candidates may request salary support from this fellowship. However, the candidate must include a brief explanation in the provided “Budget Justification” section as to why they are requesting salary.

Salaries for technicians and students may be included in the budget proposal, and the justification must indicate how these individuals will directly support the proposed research.
Q. Who receives the fellowship funds?
A. The fellowship is awarded to the institution, similar to other grants. The award is directly administered by the American Association for the Advancement of Science (AAAS), a nonprofit organization.

Q. Does my institution need to formally sign this application given that the award will be administered to the institution itself?
A. No, your institution does not need to formally sign this application. However, we strongly encourage you to check with your institution prior to submitting the application to ensure they could accept the award.

Q. What is the payment structure/timing of the fellowship grant?
A. The L'Oréal USA For Women in Science grant will be paid in two installments. The first grant distribution, typically half of the total value of the Fellowship, will be paid at the Fellowship award ceremony. The remaining balance will be mailed following submission and review of the required interim status report which is due six months after the initial grant distribution. Alternative schedules for fund distributions must be requested and explained in writing and must be approved by L'Oréal USA and AAAS. Fellowship funds will be available for use beginning on the day of the Awards Ceremony in November 2020.

Q. Are there any restrictions regarding the use of the fellowship funds?
A. Funds may be used on approved budget items, where no more than one-half of the total fellowship award may be expensed before the submission of the interim fellowship report and any changes in use of funds will require the approval of L’Oréal USA and AAAS. L’Oréal USA and AAAS must be notified of any changes in position or institution.

Q. What happens if the fellowship recipient changes positions or institutions during the course of the fellowship year?
A. If the fellowship recipient changes institutions or positions during the course of the fellowship year, L'Oréal USA and AAAS must be notified. If the new position meets the requirements, funding will continue. If at a new institution, any remaining funds must be returned to AAAS for redistribution to the successor institution.

Q. What happens to equipment purchases if I change institutions during the course of the fellowship year?
A. Any equipment purchased with the fellowship funds are the property of the fellowship recipient and with approval from L'Oréal USA and AAAS can be moved to an institution where the fellowship recipient is conducting the proposed research. If the fellowship recipient is no longer conducting the proposed research, AAAS will make a determination about the future use of the equipment.

Q. What if the nature of my funding proposal changes after the submission of my application?
A. Any changes in the use of fellowship funds will require the approval of L’Oréal USA and AAAS.

Q. Can the fellowship period be extended beyond one year?
A. The L’Oréal USA For Women in Science fellowship award is effective for one year. Any extensions must be requested in writing and must be approved by L’Oréal USA and AAAS.
FOR WOMEN IN SCIENCE PROGRAM

L’ORÉAL’S HISTORY OF SCIENTIFIC INNOVATION
Founded by a scientist more than 100 years ago, L’Oréal has always been a business driven by science. Today, with a scientific workforce composed primarily of women, L’Oréal relies on the contributions of women in STEM fields every day to drive growth, innovation and discovery across all facets of the company.

L’ORÉAL-UNESCO FOR WOMEN IN SCIENCE PROGRAM
The L’Oréal-UNESCO For Women in Science program is a global philanthropy that rewards women scientists around the world at critical stages of their career. The program was created out of a simple belief: the world needs science and science needs women, because women in science have the power to change the world.

L’ORÉAL USA FOR WOMEN IN SCIENCE FELLOWSHIP
In the United States, the For Women in Science fellowship program awards five women postdoctoral scientists annually with grants for their contributions in Science, Technology, Engineering and Math (STEM) fields and commitment to serving as role models for younger generations. Each year, the program attracts talented applicants from diverse STEM fields, representing some of the nation’s leading academic institutions and laboratories. L’Oréal USA partners with the American Association for the Advancement of Science (AAAS) to manage the program’s application and peer-review process.

THE WORLD NEEDS SCIENCE AND SCIENCE NEEDS WOMEN.
